SHELF DRILLING, LTD. SIX MONTHS ENDED JUNE 30, 2023 AND 2022 (UNAUDITED)

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

Independent Auditor's Report

To the board of directors and shareholders of Shelf Drilling, Ltd.

Results of Review of Interim Financial Information

We have reviewed the accompanying condensed consolidated interim financial information of Shelf Drilling, Ltd. and its subsidiaries (together, the "Company"), which comprise the condensed consolidated balance sheet as of June 30, 2023, and the related condensed consolidated statements of operations and equity for the three-month and six-month periods ended June 30, 2023 and 2022 and the condensed consolidated statement of cash flows for the six-month periods ended June 30, 2023 and 2022 including the related notes (collectively referred to as the "condensed consolidated interim financial information").

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America.

Basis for Review Results

We conducted our review in accordance with auditing standards generally accepted in the United States of America (US GAAS) applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. A review of interim financial information is substantially less in scope than an audit conducted in accordance with US GAAS, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, we do not express such an opinion. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our review. We believe that the results of the review procedures provide a reasonable basis for our conclusion.

Responsibilities of Management for the Condensed Consolidated Interim Financial Information

Management is responsible for the preparation and fair presentation of the condensed consolidated interim financial information in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the condensed consolidated interim financial information that is free from material misstatement, whether due to fraud or error.

Other Matter

We previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of Shelf Drilling, Ltd. and its subsidiaries as of December 31, 2022, and the related consolidated statements of operations, comprehensive loss, equity and of cash flows for the year then ended (not presented herein), and in our report dated March 20, 2023, we expressed an unmodified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2022, is consistent, in all material respects, with the audited consolidated balance sheet from which it has been derived.

Note 1 – Business and Basis of Presentation

Business

Shelf Drilling, Ltd. ("SDL") was incorporated on August 14, 2012 as a private corporation in the Cayman Islands. SDL, with its majority owned subsidiaries (together, the "Company", "we" or "our") is a leading international shallow water offshore contractor providing equipment and services for the drilling, completion, maintenance and decommissioning of oil and natural gas wells. We are solely focused on shallow water operations in depths of up to 500 feet and our fleet consists of 36 independent-leg cantilever ("ILC") jack-up rigs as of June 30, 2023. Since June 25, 2018, SDL shares are listed on the Oslo Stock Exchange ("OSE") under the ticker symbol SHLF.

SDL is a holding company with no significant operations or assets other than interests in its direct and indirect subsidiaries. All operations are conducted through Shelf Drilling Holdings, Ltd. ("SDHL") an indirect wholly owned subsidiary of SDL. Our corporate offices are in Dubai, United Arab Emirates ("UAE"), geographically close to our operations in the Middle East, North Africa and the Mediterranean (together, "MENAM"), Southeast Asia, India, West Africa and North Sea.

Basis of Presentation

The Company has prepared the accompanying condensed consolidated financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Pursuant to such rules and regulations, these financial statements do not include all disclosures required by GAAP for complete financial statements. The condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair statement of financial position, results of operations and cash flows for the interim periods. Such adjustments are of a normal recurring nature unless otherwise noted. Operating results for the three and six months ended June 30, 2023 are not necessarily indicative of the results that may be expected for the year ending December 31, 2023 or for any future period. The accompanying condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto in the Company's Form 10-K Equivalent for the year ended December 31, 2022. The amounts are presented in United States ("U.S.") dollar ("\$") rounded to the nearest million, unless otherwise stated. The Company's significant accounting policies are included in the Company's Form 10-K Equivalent for the year ended December 31, 2022.

Note 2 – Revenues

As of June 30, 2023, the drilling contract with the longest expected remaining duration, excluding unexercised options, extends through June 2031. See Note 13 – Segment and Related Information for disclosure of total revenues by country based on the location of the service provided.

Lease revenue

On October 5, 2022, a subsidiary of the Company signed a bareboat charter agreement with a Noble Corporation ("Noble") subsidiary for the Shelf Drilling Barsk rig that was acquired as part of the acquisition of five jack-up rigs, related contracts, support and infrastructure from Noble for \$375.0 million (the "Acquisition"). See Note 5 – Property and Equipment for additional details. The Noble subsidiary is leasing the rig from the Company for the remaining term of its drilling contract with Equinor ASA, which is expected to end in October 2023. The Company receives payments of \$2.0 million per month, which is trued up at periodic intervals for revenues and expenses per the terms of the agreement. The Company is accounting for this operating lease and these variable lease payments under Accounting Standards Codification ("ASC") 842 Leases. The lease payments are recognized as revenues over the lease term as use of the asset occurs.

(Unaudited)

Amounts recorded for lease revenues were as follows (in millions):

	Three months ended June 30,				Six months en	nded	June 30,
		2023		2022	2023		2022
Lease revenue (1)	\$	7.6	\$	_	\$ 17.5	\$	_

⁽¹⁾ Recorded in the other revenues in the condensed consolidated statements of operations.

Contract liabilities and deferred contract costs

Contract liabilities

The Company recognizes a contract liability when we invoice an amount which is greater than the revenues allocated to the related performance obligations for goods or services transferred to a customer. Contract liabilities may include fees for contract preparation, capital upgrades, mobilization and advance payments from customers for future services which are recorded as other current liabilities and other long-term liabilities, as appropriate, in the condensed consolidated balance sheets.

Following are the details of the contract liabilities (in millions):

	As	of	
	June 30, 2023	De	ecember 31, 2022
Current contract liabilities	\$ 34.5	\$	4.9
Non-current contract liabilities	64.7		3.5
	\$ 99.2	\$	8.4

Significant changes in contract liabilities were as follows (in millions):

	Six months ended June 30,					
	2023		2022			
Balance, beginning of period	\$	3.4 \$	30.8			
Increase due to contractual additions	9	9.3	5.1			
Decrease due to amortization of deferred revenue	(3.5)	(17.5)			
Decrease due to application of customer deposits and other			(2.3)			
Balance, end of period	\$ 9	9.2 \$	16.1			

Approximately \$3.7 million and \$15.9 million of revenues recognized during the six months ended June 30, 2023 and 2022, respectively, were included in the beginning contract liabilities balances.

(Unaudited)

Expected future amortization of contract liabilities, net recorded as of June 30, 2023 is as follows (in millions):

	As of
	June 30, 2023
Remainder of 2023	\$ 21.8
2024	25.5
2025	20.4
2026	14.2
2027	14.0
2028 and thereafter	3.3
	\$ 99.2

Deferred contract costs

The Company's deferred contract costs are mainly related to contract preparation and mobilization costs. Certain non-contractual costs such as regulatory inspections, major equipment overhauls (including rig upgrades), and stacked rig activations are expensed, deferred or capitalized into property and equipment as appropriate and are not included in deferred contract costs.

Following are the details of the deferred contract costs (in millions):

	As	of	
	une 30, 2023		mber 31, 2022
Current deferred contract costs	\$ 34.4	\$	14.8
Non-current deferred contract costs	46.1		17.3
	\$ 80.5	\$	32.1

Significant changes in deferred contract costs are as follows (in millions):

	Six months en	ıded .	June 30,
	2023		2022
Balance, beginning of period	\$ 32.1	\$	36.7
Increase due to contractual additions	58.9		19.3
Decrease due to amortization of deferred contract costs	(10.5)		(16.1)
Balance, end of period	\$ 80.5	\$	39.9

(Unaudited)

Allowance for credit losses

Allowance for credit losses was \$3.4 million and \$3.8 million as of June 30, 2023 and December 31, 2022, respectively. Movements in allowance for credit losses were as follows (in millions):

	;	Six months e	nded J	une 30,
		2023		2022
Balance, beginning of period	\$	3.8	\$	3.2
(Reversal of provision) / provision for credit losses, net		(0.4)		0.1
Write-off of uncollectible amounts				(0.1)
Balance, end of period	\$	3.4	\$	3.2

Note 3 – Intangible Liability

Amounts recorded for amortization of intangible liability were as follows (in millions):

	Three mon	ths e	ended June 30,		nded June	30,	
	2023		2022		2023	20	22
Amortization of intangible liability (1)	\$ 3	.2	\$	\$	6.8	\$	_

⁽¹⁾ Recorded in the operating revenues line item in the condensed consolidated statements of operations.

The gross carrying amount and the accumulated amortization of intangible liability is as follows (in millions):

	As of					
	June 30, 2023	D	ecember 31, 2022			
Intangible liability						
Current portion (1)	\$ 1.0	\$	2.2			
Non-current portion (2)	27.7		33.3			
	\$ 28.7	\$	35.5			

⁽¹⁾ Recorded in other current liabilities on the condensed consolidated balance sheets.

The estimated future amortization of the intangible liability is as follows (in millions):

	As	of June 30, 2023
Remainder of 2023	\$	7.4
2024		12.8
2025		7.5
2026		1.0
	\$	28.7
Weighted average life (in years)		2.2

Note 4 – Variable Interest Entities

The Company, through its wholly owned indirect subsidiary SDHL, is the primary beneficiary of variable interest entities ("VIEs") providing services which are Shelf Drilling Ventures (Malaysia) Sdn. Bhd. ("SDVM"), PT. Hitek Nusantara Offshore Drilling ("PT Hitek"), Shelf Drilling (Nigeria) Limited ("SDNL"), Shelf Drilling Offshore Services Limited ("SDOSL") and Shelf Drilling (Angola), Limitada ("SDAL") and which are included in these condensed consolidated financial statements.

These VIEs are incorporated in jurisdictions where majority or significant foreign ownership of domestic companies is restricted or commercially incompatible with local content requirements. To comply with such foreign ownership and/or local content restrictions, the Company and the relevant local third parties, described further below, have established these VIEs and have contractual arrangements to convey decision-making and economic rights to the Company.

Following is the information about the third-party interests in the VIEs:

	Third party	Third party owner	rship percentage
	country of incorporation	June 30, 2023	December 31, 2022
SDVM	Malaysia	60%	60%
PT Hitek	Indonesia	20%	20%
SDNL	Nigeria	51%	51%
SDOSL	Nigeria	20%	20%
SDAL	Angola	51%	51%

Each of the third parties listed above are not in a position to provide additional financing to their respective VIEs and do not participate in any gains and/or losses. The Company is the primary beneficiary as it has the power to direct the operating and marketing activities, which are the activities that most significantly impact each entity's economic performance, and has the obligation

⁽²⁾ Recorded in other long-term liabilities on the condensed consolidated balance sheets.

(Unaudited)

to absorb losses and the right to receive a majority of the benefits of the VIEs. Therefore, the Company has determined that the VIEs meet the criteria to be presented as consolidated entities in the Company's condensed consolidated financial statements.

Following are revenues and operating costs and expenses of the VIEs, after eliminating the effect of intercompany transactions, for the six months ended June 30, 2023 and 2022 (in millions):

	SDVM	P	PT Hitek		SDNL		DOSL	SDAL		Total	
June 30, 2023:											
Revenues	\$ —	\$		\$	21.5	\$		\$	6.7	\$	28.2
Operating costs and expenses	\$ 0.1	\$	0.2	\$	18.7	\$	3.0	\$	7.1	\$	29.1
June 30, 2022:											
Revenues	\$ _	\$		\$	17.5	\$		\$	5.2	\$	22.7
Operating costs and expenses	\$ 0.1	\$	0.2	\$	17.5	\$	2.5	\$	5.7	\$	26.0

There are no material differences between the results of operations and cash flows of the consolidated Company, inclusive of the VIEs listed above, than there would have been if the VIE operations were run out of a wholly owned subsidiary of the Company.

Following are the assets and liabilities of the VIEs, after eliminating the effect of intercompany transactions, as of June 30, 2023 (in millions):

	SDVM		PT Hitek		SDNL		SDOSL		SDAL		F	Γotal

There are no material restrictions on distributions of the assets disclosed above, except for certain property and equipment which is pledged as collateral. Liability holders typically have recourse to the general credit of the Company when seeking to enforce settlement of liabilities. See Note 14 – Related Parties for additional discussion on the Company's transactions with its VIEs.

Note 5 – Property and Equipment

Sales and Disposals

Details of the sales and disposals of other property and equipment were as follows (in millions):

	Six months e	nded	June 30,
	2023		2022
Net carrying value	\$ 0.5	\$	0.9
Net proceeds	\$ 0.7	\$	1.0
Gain on disposal of assets	\$ 0.2	\$	0.1

Rig Acquisitions

On June 17, 2022, the Company entered into an asset purchase agreement to acquire one premium jack-up drilling rig from a third party for \$30.0 million and made a \$6.0 million deposit in June 2022. The balance was paid and the rig was delivered in July 2022.

On June 23, 2022, the Company entered into an agreement for the Acquisition. The Company raised net equity of \$48.1 million in June 2022 for the Acquisition.

(Unaudited)

SDHL contributed \$40.0 million in June 2022, \$10.0 million in September 2022 and \$70.0 million in October 2022 for a total of \$120.0 million, prior to the completion of the Acquisition, into Shelf Drilling (North Sea), Ltd ("SDNS").

SDNS was initially a wholly-owned subsidiary of the Company. On October 3, 2022, SDNS completed a private placement of common shares for gross proceeds of \$80.0 million and equity issuance costs of \$4.7 million resulting in net proceeds of \$75.3 million. As of October 3, 2022, SDNS is owned 60% by the Company and 40% by external investors. SDNS used equity proceeds along with new debt to fund the completion of the Acquisition on October 5, 2022. Since October 12, 2022, SDNS shares are listed on Euronext Growth Oslo Exchange under the ticker symbol SDNS.

In accordance with ASC 805 Business Combination, we determined substantially all of the fair value of the Acquisition was concentrated in the acquired jack-up rigs and therefore we accounted for the transaction as an asset acquisition. The Company used an independent third-party expert to determine the fair value of the assets acquired and liabilities assumed. The Company also incurred transaction costs of \$0.6 million which were capitalized as an additional component of the cost of the assets and liabilities assumed.

The Company estimated the fair values of the jack-up rigs and the intangible liability by applying the income approach. The income approach is based on estimated projected cash flows expected to be realized from the use of the assets and the difference between the contracted and the market dayrates, at the date of the Acquisition, for the intangible liability. Fair value evaluations are, by nature, highly subjective. The critical estimates are significant unobservable inputs, which are based on numerous estimates and assumptions about future operations and market conditions including but not limited to those such as projected rig utilization, dayrates, operating, overhead and major project costs, remaining useful life, salvage value and discount rates as well as inflation assumptions. The Company used rig utilization rates ranging from 90% to 98%, discount rate of 15% and dayrates ranging from slightly below \$70 thousand to slightly above \$400 thousand in determining the fair value. The Company estimated the fair values using significant unobservable inputs. These assumptions are considered non-recurring level 3 fair value measurements.

The following table presents the total cost of the acquisition and the allocation to assets and liabilities acquired based upon their relative fair value (in millions):

Deferred tax asset 2.5 Deferred tax liability (2.1		As o	of October 5, 2022
Jack-up rigs (1) \$ 417.7 Intangible liability, current (2) (7.7 Intangible liability, non-current (2) (35.4 Deferred tax asset 2.5 Deferred tax liability (2.1	Total consideration	\$	375.0

⁽¹⁾ Recorded in property and equipment line on the condensed consolidated balance sheets.

Note 6 – Income Taxes

Income tax expense for the three and six months ended June 30, 2023 and 2022, was calculated using a discrete approach whereby income tax expense is determined by estimating the actual income tax liability that will result from earnings from continued operations for the three and six months ended June 30, 2023 and 2022, rather than by using an estimated annual effective income tax rate as applied to year-to-date income before income taxes, primarily due to management's view that it was not possible to reliably estimate an annual 2023 and 2022 effective tax rate given the sensitivity of the estimated annual effective tax rate to any changes in annual income or losses before income tax.

⁽²⁾ See Note 3 – Intangible Liability for details.

(Unaudited)

The Company's income tax expense (in millions) and effective income tax rate were as follows:

	Three months	ende	d June 30,	Six months ended June 30,					
	2023	2022			2023	2022			
Income tax expense	\$ 8.2	\$	9.2	\$	16.8	\$	15.9		
Effective tax rate	101 %		(121)%		(95)%		(289)%		

Income tax expense for the three months ended June 30, 2023 was lower than for the same period in 2022, primarily due to currency fluctuations for prior period tax receivables which are measured in foreign currencies and subject to fluctuations against the U.S. Dollar and differences in the carrying value of certain assets for financial reporting purposes versus the basis of such assets for income tax reporting purposes, partially offset by an increase in tax expense due to higher revenues and liabilities for uncertain tax positions.

Income tax expense for the six months ended June 30, 2023 was higher than for the same period in 2022 primarily due to an increase in revenues and liabilities for uncertain tax positions, partially offset by a reduction in currency fluctuations for prior period tax receivables which are measured in foreign currencies and subject to fluctuations against the U.S. Dollar.

Tax Returns and Examinations

The Company is currently challenging a tax assessment of \$8.1 million, exclusive of interest and fees, related to one of the Company's operations. The Company is appealing the assessment and believes it is more likely than not that it will ultimately prevail. In January 2022, the Company began making required monthly tax deposits calculated over a six-year period while the Company's appeal is being considered.

The Company may be subject to income tax examinations in various jurisdictions. If any tax authority successfully challenges the Company's tax positions, the Company's income tax liability could increase substantially and the Company's earnings and cash flows from operations could be materially adversely affected. As of June 30, 2023, the 2013 through 2022 income tax periods remain open for examination in many of the Company's taxable jurisdictions.

(Unaudited)

Note 7 – Debt

The principal amounts and carrying values of debt are as follows (in millions):

		As of

	As of June 30, 2023
Twelve months ending June 30,	
2024	12.5
2025	1,222.5
2026	225.0
Total	1,460.0

Note 8 – Commitments and Contingencies

Legal Proceedings

The Company is involved in various claims and lawsuits in the normal course of business. The Company does not believe that the resolution of these legal proceedings will have a material adverse impact on its financial condition, results of operations, or cash flows.

(Unaudited)

Surety Bonds and Other Bank Guarantees

It is customary in the Company's business to have various surety bonds in place that secure customs obligations relating to the temporary importation of rigs and equipment and certain contractual performance and other obligations. The Company maintains surety bond facilities in either U.S. dollars or local currencies provided by several banks in India, the United Kingdom, UAE, Nigeria, Vietnam and Thailand, which may be secured by restricted cash balances to guarantee various contractual, performance and customs obligations.

The total and outstanding surety bond facilities were as follows (in millions):

		As of					
	June 30, D 2023			December 31, 2022			
Total surety bond facilities	\$	76.4	\$	99.2			
Outstanding surety bonds	\$	50.1	\$	72.6			

Other Contingencies

The Company received an assessment for withholding taxes for one of its subsidiaries related to multiple tax years under review. The total amount of the tax assessment plus estimated penalties and interest was \$6.6 million and \$8.3 million as of June 30, 2023 and December 31, 2022, respectively, and the Company will be indemnified for \$6.5 million and \$8.1 million, respectively, of this exposure from the third-party prior owner of the subsidiary. The Company does not believe that the ultimate resolution of these proceedings will have a material adverse impact on its financial condition, results of operations or cash flows.

Note 9 – Fair Value of Financial Instruments

The carrying amounts of the Company's financial instruments, which include cash and cash equivalents, accounts receivable, restricted cash, accounts payable, accrued liabilities and operating lease liabilities, approximate their fair market values due to the short-term duration and/or the nature of the instruments.

The following table represents the carrying value and estimated fair value of long-term debt (in millions):

	As of				As of			
	June 30, 2023				December 31, 2022			
	Carrying value		Estimated fair value		Carrying value			Estimated fair value
8.875% Senior Secured First Lien Notes, due November 2024	\$	304.6	\$	309.5	\$	302.8	\$	304.2
8.25% Senior Unsecured Notes, due February 2025		896.2		842.9		895.1		782.4
10.25% Senior Secured Notes, due October 2025		240.6		251.0		238.8		247.5
	\$	1,441.4	\$	1,403.4	\$	1,436.7	\$	1,334.1

The estimated fair value of the long-term debt was determined using quoted market prices or Level 1 inputs.

(Unaudited)

Note 10 – Equity

As of June 30, 2023, 194.0 million shares were issued and outstanding, of which 173.1 million shares were listed on the OSE. The remaining shares represent shares held by Castle Harlan, Inc. and Lime Rock Partners (together, the "Sponsors"), or certain other shareholders, which have not been listed and are not currently required to be listed on the OSE.

Common Shares Issuance

On February 1, 2023, the Company issued 17.6 million common shares at \$0.01 per share. The gross proceeds from the issuance were \$46.1 million and equity issuance costs were \$2.0 million resulting in net proceeds of \$44.1 million.

On June 24, 2022, the Company issued 38.4 million common shares at \$0.01 per share. The gross proceeds from the issuance were \$50.4 million and equity issuance costs were \$2.3 million resulting in net proceeds of \$48.1 million. The Company used these proceeds for the Acquisition as discussed in Note 5 – Property and Equipment.

Note 11 – Supplemental Cash Flow Information

Capital expenditures and deferred costs

Capital expenditures and deferred costs include rig acquisition and other fixed asset purchases, construction expenditures on newbuild rigs and certain expenditures associated with regulatory inspections, major equipment overhauls, contract preparation (including rig upgrades), mobilization and stacked rig reactivations.

The Company's capital expenditures and deferred costs were as follows (in millions):

	Six months ended June 30,				
		2023		2022	
Regulatory and capital maintenance	\$	48.5	\$	33.4	
Contract preparation		58.8		19.3	
Fleet spares, transition costs and others		9.3		3.3	
	\$	116.6	\$	56.0	
Rig acquisitions		26.8			
Total capital expenditures and deferred costs	\$	143.4	\$	56.0	

The reconciliation of the cash payment for additions to property and equipment and changes in deferred costs, net to total capital expenditures and deferred costs was as follows (in millions):

	Six months ended June 30,				
		2023	2	2022	
Cash payments for additions to property and equipment	\$	65.2	\$	17.6	
Net change in advances and accrued but unpaid additions to property and equipment		(2.1)		(0.9)	
Total capital expenditures	\$	63.1	\$	16.7	
Changes in deferred costs, net	\$	55.0	\$	10.3	
Add: Amortization of deferred costs		25.3		29.0	
Total deferred costs	\$	80.3	\$	39.3	
Total capital expenditures and deferred costs	\$	143.4	\$	56.0	

(Unaudited)

The reconciliation of cash, cash equivalents and restricted cash reported in the condensed consolidated balance sheets to the total of such amounts reported in the condensed consolidated statements of cash flows was as follows (in millions):

		June 30, 2023	December 31, 2022	
Cash and cash equivalents	\$	141.9	\$	140.8
Restricted cash included in other current assets		6.7		12.6
Restricted cash included in other long-term assets		25.4		23.9
Total cash, cash equivalents and restricted cash	\$	174.0	\$	177.3

Note 12 - Net Income / (Loss) Per Share

The computation of basic and diluted net income / (loss) per share is as follows (in millions, except per share data):

	Three months	ended June	2 30,	Six months ended June 30,				
_	2023	202	22	2023		2022		
Numerator for net income / (loss) per share		·						
Net income / (loss) attributable to controlling interest \$	1.7	\$	(16.8) \$	(31.7)	\$	(21.4)		
Denominator for net income / (loss) per share								
Weighted average common shares:								
Weighted average common shares - basic	194.0		140.1	191.0		138.6		
Weighted average common shares - diluted	204.4		140.1	191.0		138.6		
Net income / (loss) per common share - basic and diluted \$	0.01	\$	(0.12) \$	(0.17)	\$	(0.15)		

The following were dilutive common shares which were not included for the remaining periods as the effect of including these shares in the calculation would have been antidilutive, except for the diluted shares for the three months ended June 30, 2023 (in millions):

	Three months end	ded June 30,	Six months end	led June 30,
_	2023	2022	2023	2022
Dilutive common shares	10.4	9.0	10.8	7.3

Note 13 – Segment and Related Information

Operating segments are defined as components of an entity for which separate financial statements are available and are regularly evaluated by the chief operating decision maker in deciding how to allocate resources and assess performance. The Company has one reportable segment, contract services, which reflects how the Company manages its business, and the fact that the Company's fleet is dependent upon the worldwide oil and natural gas industry.

Total revenues by country based on the location of the service provided were as follows (in millions):

(Unaudited)

	Three months ended June 30,				Six months en	ended June 30,		
		2023		2022	2023		2022	
Saudi Arabia	\$	64.7	\$	47.8	\$ 119.9	\$	94.6	
India		35.0		28.8	55.7		56.7	
Nigeria		28.5		17.7	44.2		31.4	
Thailand		21.5		17.1	42.5		52.9	
Angola		10.4		16.8	22.3		28.6	
Italy		7.4		7.8	14.9		15.3

Total revenues	\$	214.2	\$	150.7	\$ 397.6	\$	306.7	

⁽¹⁾ Represents countries which are individually less than 5% of total revenues.

Total long-lived assets, net of impairment, depreciation and amortization by location based on the country in which the assets were located as of the balance sheet date were as follows (in millions):

		June 30, 2023	Do	ecember 31, 2022
Thailand	\$	450.1	\$	463.1
Saudi Arabia		307.7		189.3
Nigeria		183.6		87.6
Norway		165.2		167.9
United Kingdom		109.7		113.1
India		102.8		60.3
Italy		91.5		71.5
United Arab Emirates		59.2		129.2
Others (1)		228.3		339.2
Total long-lived assets, net	\$	1,698.1	\$	1,621.2

⁽¹⁾ Represents countries which are individually less than 5% of total long-lived assets.

The total long-lived assets are comprised of property and equipment, right-of-use assets and short-term and long-term deferred costs. A substantial portion of the Company's assets are mobile, and as such, asset locations at the end of the period are not necessarily indicative of the geographic distribution of the revenues generated by such assets during the period.

Note 14 – Related Parties

The Company's related parties include China Merchants, the Sponsors, independent SDL and SDNS directors, key management personnel, VIEs and entities controlled, jointly controlled or significantly influenced by such parties.

(Unaudited)

Sponsors and Directors

The Company recorded Sponsors' and SDL directors' costs. Sponsors' and SDL directors' costs include SDL directors' fees and reimbursement of costs incurred by Sponsors, and SDL directors for attendance at meetings relating to the management and governance of the Company. The amounts recorded were as follows (in millions):

	Three months ended June 30,				Six months en	nded	June 30,
	2023			2022	2023		2022
Sponsors and SDL directors costs	\$	0.2	\$	0.4	\$ 0.5	\$	0.7

The total liability recorded under accounts payable for such transactions was as follows (in millions):

_		As	of	
	June 202			mber 31, 2022
Accounts payable	\$	0.2	\$	0.3

The Company incurs costs for SDNS independent directors' fees and reimbursement of costs incurred for attendance at SDNS meetings relating to the management and governance of SDNS. The Company recorded immaterial amounts for the three and six months ended June 30, 2023. There were zero costs in the comparable prior year periods. The total liability recorded for these costs under accounts payable was immaterial as of June 30, 2023 and December 31, 2022, respectively.

VIEs

Certain VIE related parties provided goods and services to drilling rigs owned by several of the Company's foreign subsidiaries. The amounts recorded were as follows (in millions):

	Three months ended June 30,				Six months ended June 30			
		2023		2022		2023		2022
VIE related parties provided goods and services	\$	0.7	\$	0.8	\$	1.4	\$	1.4

The total liability recorded under accounts payable for such transactions was as follows (in millions):

	As	of	
	June 30, 2023	Do	ecember 31, 2022
Accounts payable	\$ 0.9	\$	0.8

Lease

The Company entered into an operating lease agreement for yard space with a VIE related party with cancellable terms. The duration of this lease is five years. The lease does not include an extension or renewal option, but a termination option is available to

(Unaudited)

either party. The lease payments are fixed for the duration of the lease. This lease agreement does not contain any material residual value guarantees or material restrictive covenants. The Company has recorded the following (in millions):

Note 15 – Subsequent Events

The Company has evaluated subsequent events through August 9, 2023, the date of issuance of the condensed consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the accompanying unaudited condensed consolidated financial statements contained in this Quarterly Report on Form 10-Q equivalent and the audited consolidated financial statements included in the Company's Form 10-K Equivalent for the year ended December 31, 2022.

Forward-Looking Statements

All statements other than statements of historical facts included in this report regarding any of the matters in the list immediately below are forward-looking statements. Forward-looking statements in this report include, but are not limited to, statements about the following subjects:

- expectations, trends and outlook regarding industry and market conditions, oil and gas production and market prices, demand for hydrocarbons, offshore activity and dayrates;
- changes in general economic, fiscal and business conditions in jurisdictions in which we operate and elsewhere;
- the decline in demand as oil and gas fossil fuels are replaced by sustainable/clean energy;
- future regulatory requirements or customer expectations to reduce carbon emissions;
- the effects of supply chain and vendor activity disruptions on availability of materials and equipment necessary to operate our fleet of rigs;
- public health issues, including epidemics and pandemics such as COVID-19 and their effect on demand for our services, global demand for oil and natural gas, the U.S. and world financial markets, our financial condition, results of operations and cash flows;
- changes in worldwide rig supply and demand, competition or technology, including as a result of delivery of newbuild rigs;
- the impact of variations in demand for our rigs, including the preferences of some of our customers for newer and/or higher specification rigs;
- the ability of our customers to obtain permits;
- our ability to renew or extend contracts, enter into new contracts when such contracts expire or are terminated, and negotiate the dayrates and other terms of such contracts;
- expectations, trends and outlook regarding operating revenues, operating and maintenance expense, insurance coverage, insurance expense and deductibles, interest expense and other matters with regard to outlook and future earnings;
- the effect of disproportionate changes in our costs compared to changes in operating revenues;
- complex and changing laws and regulations, including environmental, anti-corruption and tax laws and regulations, that can adversely affect the cost, manner or feasibility of doing business;
- the effects and results of our strategies;
- downtime and other risks associated with offshore rig operations or rig relocations, including rig or equipment failure, damage and other unplanned repairs;
- the expected completion of shipyard projects including the timing of rig construction or reactivation and delivery and the return of idle rigs to operations;
- future capital expenditures and deferred costs, refurbishment, reactivation, transportation, repair and upgrade costs;
- the cost and timing of acquisitions and integration of additional rigs;
- sufficiency and availability of funds and adequate liquidity for required capital expenditures and deferred costs, working capital, debt service and other business requirements;
- our ability to obtain financing and pursue other business opportunities may be limited by our debt levels, debt agreement restrictions and the credit ratings assigned to our debt by independent credit rating agencies;
- the market value of our rigs and of any rigs we acquire in the future, which may decrease and/or be impaired as a result of Company specific, industry specific or market factors;
- the level of reserves for accounts receivable and other financial assets, as appropriate;
- the proceeds and timing of asset dispositions;
- litigation, investigations, claims, disputes and other contingent liabilities and their effects on our financial condition and results of operations;

- effects of accounting changes and adoption of accounting policies;
- our ability to attract and retain skilled personnel on commercially reasonable terms, whether due to labor regulations, unionization or otherwise;
- the security and reliability of our technology systems and service providers;
- the effect of changes in foreign currency exchange rates; and
- our incorporation under the laws of the Cayman Islands and the limited rights to relief that may be available compared to United States ("U.S.") laws.

This Quarterly Report should be read in its entirety as it pertains to Shelf Drilling, Ltd. ("SDL"). Except where indicated, the condensed consolidated financial statements and the notes to the condensed consolidated financial statements are combined. References in this report to "Shelf Drilling", "SDL", the "Company", "we", "us", "our" and words of similar meaning refer collectively to Shelf Drilling Ltd. and its consolidated subsidiaries, unless the context requires otherwise. When used in this Quarterly Report, the words "anticipate," "estimate," "expect," "intend," "plan," "project," "could," "may," "might," "should," "will" and similar words or the negative of these terms are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words. These forward-looking statements are based on the Company's current expectations and assumptions about future events and are based on currently available information as to the outcome and timing of future events.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements to be materially different from the anticipated future results, performance or achievements expressed or implied by the forward-looking statements. The statements under Item 1A. Risk Factors included in the Company's Form 10-K Equivalent for the year ended December 31, 2022 should be read carefully in addition to the above uncertainties and assumptions. These risks and uncertainties are beyond the Company's ability to control, and in many cases, the Company cannot predict such risks and uncertainties, which could cause its actual results to differ materially from those indicated by the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated.

All subsequent written and oral forward-looking statements attributable to the Company or to persons acting on the Company's behalf are expressly qualified in their entirety by reference to these risks and uncertainties. Undue reliance should not be placed on forward-looking statements. Each forward-looking statement is applicable only as of the date of the particular statement, and the Company undertakes no obligation to update or revise any forward-looking statements, except as required by law.

Business

Shelf Drilling, Ltd. ("SDL") was incorporated on August 14, 2012 as a private corporation in the Cayman Islands. SDL, with its majority owned subsidiaries (together, the "Company", "we" or "our") is a leading international shallow water offshore contractor providing equipment and services for the drilling, completion, maintenance and decommissioning of oil and natural gas wells. We are solely focused on shallow water operations in depths of up to 500 feet and our fleet consists of 36 independent-leg cantilever ("ILC") jack-up rigs as of June 30, 2023, making us one of the world's largest owners and operators of jack-up rigs by number of active shallow water rigs. Since June 25, 2018, SDL shares are listed on the Oslo Stock Exchange ("OSE") under the ticker symbol SHLF. Our website address is www.shelfdrilling.com.

Since our inception in 2012, we have applied our "fit-for-purpose" strategy to enhance the performance of our business, people and processes, leveraging our sole focus on the shallow water segment and the decades of experience of our people with our customers, rigs and markets where we operate. The diversified geographical focus of our jack-ups and the allocation of resources to purchase, build or upgrade rigs are determined by the activities and needs of our customers. Currently, our main customers are national oil companies ("NOCs"), international oil companies ("IOCs") and independent oil and natural gas companies, who contract our rigs for varying durations.

SDL is a holding company with no significant operations or assets other than interests in its direct and indirect subsidiaries. All operations are conducted through Shelf Drilling Holdings, Ltd. ("SDHL") an indirect wholly owned subsidiary of SDL. Our corporate offices are in Dubai, United Arab Emirates ("UAE"), geographically close to our operations in the Middle East, North Africa and the Mediterranean (together, "MENAM"), Southeast Asia, India, West Africa and North Sea.

Recent events

In August 2023, SDNS secured a contract for the Shelf Drilling Fortress, with planned start-up of operations in September 2023 and an estimated firm term of four to five months for a contract value of \$17 million, plus options for additional wells with a total estimated duration of 13 months.

Drilling fleet

The following table summarizes the Company's offshore rigs:

	As of						
	June 30, 2023	March 31, 2023	June 30, 2022				
Jack-up rigs	36	36	30				

Outlook

Brent crude oil prices, the key driver in the demand for shallow water drilling activity, averaged \$80 per barrel during the first seven months of 2023. Oil prices increased in late June following the announcement of a further reduction in oil output from Saudi Arabia and lower OPEC production targets into 2024. The economic sentiment is improving and oil demand is projected to increase in the second half of 2023 with supply remaining tight, which will likely lead to a further increase in price. We maintain an optimistic multi-year outlook for offshore spending and activity.

The global number of contracted jack-up rigs increased from 352 in December 2021 to 398 in August 2023, approaching 400 for the first time since Q2 2015, and marketed utilization improved from 85% to 94% over the same period. The Middle East region was the primary driver of this activity increase, and we expect other markets, particularly Southeast Asia and India, to contribute to higher rig demand levels in the second half of 2023. Following years of rig retirements and the recent surge in demand, the jack-up supply overhang from the last decade has been effectively eliminated. Dayrates on new jack-up fixtures have accelerated across regions and asset classes, and we expect this trend to continue in the quarters ahead.

Our results in the first half of 2023 were impacted by the large number of contract preparation projects underway in multiple geographies with higher capital spending and lower levels of effective utilization. With these projects now substantially complete and rigs beginning new contracts at attractive dayrates in late Q2 and early Q3 2023, we expect further growth in EBITDA in the third quarter, positive cash generation and significant deleveraging of our balance sheet in the second half of the year. As of June 30, 2023, our backlog was \$2.6 billion, with 35 of our 36 rigs under contract, providing a high degree of visibility on revenue and cash flows. Supportive industry fundamentals and our improving financial performance position us well for a refinancing of our debt obligations ahead of maturity dates in late 2024 and early 2025.

Operational measures

We use various operational measures common to our industry to evaluate our operational performance including:

- Contract backlog is the maximum contract dayrate revenues that can be earned from firm commitments for contract services represented by executed definitive agreements based on the contracted operating dayrate during the contract period less any planned out-of-service periods for regulatory inspections and surveys or other work. Contract backlog excludes revenues resulting from mobilization and demobilization fees, capital or upgrade reimbursement, recharges, bonuses and other revenue sources. Contract backlog may also include the maximum contract amount of revenues for the use of our rigs such as bareboat charters or as accommodation units. The contract period excludes revenues from extension options under our contracts, unless such options have been exercised. The contract operating dayrate may differ from the amount estimated due to reduced dayrates for rig movements, adverse weather and equipment downtime, among other factors. Actual dayrates may also include contractual adjustments based on market factors, such as Brent crude oil or natural gas prices or cost increases, and such adjustments are not estimated in the backlog dayrate. Contract backlog is a key indicator of our potential future revenue generation.
- Average dayrate is the average contract dayrate earned by marketable rigs over the reporting period excluding mobilization fees, contract preparation, capital expenditure reimbursements, demobilization, recharges, bonuses and other revenues. Average dayrate can be calculated related to historical revenues or contract backlog.

- Contracted rigs consist of all of our rigs that are under contract, including rigs currently operating under a contract and rigs preparing for an upcoming contract.
- Average contracted days per rig is the total remaining contracted days for all contracted rigs divided by the number of contracted rigs.
- *Marketable rigs* consist of all of our rigs that are operating or are available to operate, but excluding rigs under bareboat charter agreements, stacked rigs, rigs under contract for activities other than drilling, plug and abandonment or associated services, as applicable.
- Effective utilization is the number of calendar days during which marketable rigs generate dayrate revenues divided by the maximum number of calendar days during which those rigs could have generated dayrate revenues. Effective utilization measures the dayrate revenue efficiency of our marketable rigs. Effective utilization varies due to changes in operational uptime, planned downtime for periodic surveys, timing of underwater inspections, contract preparation and upgrades, time between contracts and the use of alternative dayrates for waiting-on-weather periods, repairs, standby, force majeure, mobilization or other rates that apply under certain circumstances. We exclude all other types of revenues from the calculation of effective utilization.

The following tables include selected operating measures as of and for the periods presented:

Financial measures

In addition to terms under U.S. generally accepted accounting principles ("GAAP"), we utilize certain non-GAAP financial measures. We present the non-GAAP measures, which include adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") and Adjusted EBITDA divided by total revenues excluding the amortization of intangible liability ("Adjusted EBITDA Margin") in addition to net income (loss), which is the most directly comparable GAAP financial measure. We believe that Adjusted EBITDA and Adjusted EBITDA Margin are useful non-GAAP financial measures because they are widely used in our industry to measure a company's operating performance without regard to the excluded items, which can vary substantially from company to company, and are also useful to an investor in evaluating the performance of the business over time. In addition, our management uses Adjusted EBITDA and Adjusted EBITDA Margin in presentations to our Board of Directors to provide a consistent basis to measure the operating performance of our business, as a measure for planning and forecasting overall expectations, for evaluation of actual results against such expectations and in communications with our shareholders, lenders, noteholders, rating agencies and others concerning our financial performance. Adjusted EBITDA and Adjusted EBITDA Margin may not be comparable

to similarly titled measures employed by other companies and should not be considered in isolation or as a substitute for net income (loss) or other data prepared in accordance with GAAP. Adjusted EBITDA and Adjusted EBITDA Margin have significant limitations, including but not limited to the exclusion from these numbers of various cash requirements to operate our business. Our financial measures were as follows (in millions):

⁽¹⁾ Represents certain one-time third-party professional services and certain costs related to acquisitions.

Our restricted subsidiaries accounted for 93% and 100% of our Adjusted EBITDA for the three months ended June 30, 2023 and June 30, 2022 and 89% and 100% for the six months ended June 30, 2023 and 2022, respectively. Our restricted subsidiaries accounted for 77% and 75% of our assets as of June 30, 2023 and December 31, 2022, respectively.

Operating Results

Management believes the comparison of the most recently completed quarter to the immediately preceding quarter provides more relevant information needed to understand the operating results. We have therefore elected to discuss and analyze material changes in our operating results by comparing our most recently completed quarter ended June 30, 2023 to the immediately preceding quarter ended March 31, 2023. We also continue to discuss and analyze any material changes in our operating results for the year-to-date most recently completed quarter compared to the corresponding year-to-date quarter of the preceding year.

The following table sets forth information regarding our consolidated results of operations (in millions):

Th	ree moi	nths e	ended

Three months ended June 30, 2023 compared to the three months ended March 31, 2023 and the six months ended June 30, 2023 compared to the six months ended June 30, 2022

Revenues

Total revenues for the three months ended June 30, 2023 increased by \$30.8 million compared to the three months ended March 31, 2023 primarily due to \$19.6 million related to higher effective utilization across the fleet, as seven rigs commenced new contracts and contract extensions in India, Saudi Arabia and West Africa in Q2 2023, and \$12.6 million related to higher average earned dayrate.

Total revenues for the six months ended June 30, 2023 increased by \$90.9 million compared to the same period in 2022 primarily due to revenues from the six rigs acquired in 2022 and higher average earned dayrates mainly in Saudi Arabia and Nigeria during 2023.

Operating and maintenance

Total operating and maintenance expenses for the three months ended June 30, 2023 were \$119.9 million, or 56% of total revenue, compared to \$129.2 million, or 70% of total revenue, in the three months ended March 31, 2023. Operating and maintenance expenses in the three months ended June 30, 2023, consisted of \$107.6 million rig-related expenses and \$12.3 million shore-based expenses. In the three months ended March 31, 2023, these same expenses were \$116.8 million and \$12.4 million, respectively.

Total rig-related expenses decreased by \$9.2 million in the three months ended June 30, 2023 compared to the three months ended March 31, 2023 primarily due to \$12.7 million lower maintenance and shippard expenses for the three rigs that started contracts in May / June 2023 and \$0.9 million lower operating costs for the rigs acquired in 2022, partially offset by \$4.2 million higher expenses mainly due to one rig that commenced operations in Saudi Arabia in April 2023 and one rig preparing for a new contract that started in Italy in August 2023.

Total operating and maintenance expenses for the six months ended June 30, 2023 were \$249.1 million, or 63% of total revenue, compared to \$174.5 million, or 57% of total revenue, in the six months ended June 30, 2022. Operating and maintenance expenses in the six months ended June 30, 2023 consisted of \$224.4 million rig-related expenses and \$24.7 million shore-based expenses. In the six months ended June 30, 2022, these same expenses were \$156.6 million and \$17.9 million, respectively.

Total rig-related expenses increased by \$67.8 million in the six months ended June 30, 2023 compared to the same period of 2022 primarily due to \$45.8 million higher operating costs for the six rigs acquired in 2022 and rigs that commenced contracts in 2023, \$14.4 million higher maintenance and shipyard expenses and \$7.6 million higher operating costs for rigs that were not operating for the full periods. Shore-based expenses increased by \$6.8 million for the six months ended June 30, 2023 compared to the same period in 2022 primarily due to higher support costs associated with the rigs acquired in 2022.

Depreciation

Depreciation expense increased by \$1.8 million in the three months ended June 30, 2023 compared to the three months ended March 31, 2023 primarily due to increased depreciation for the six rigs acquired in 2022, of which one was placed into operation in Q2 2023. Depreciation expense for the six month period increased by \$10.9 million primarily due to \$10.1 million higher depreciation for the rigs acquired in 2022.

Amortization of deferred costs

Total amortization of deferred costs increased by \$1.3 million in the three months ended June 30, 2023 compared to the three months ended March 31, 2023 primarily related to higher amortization of contract preparation expenses for four rigs which commenced contracts in the second quarter of 2023, partially offset by lower amortization on one rig that completed its contract in early 2023.

The \$3.7 million decrease in amortization of deferred costs in the six months ended June 30, 2023 compared to the same period in 2022 was primarily related to lower amortization on rigs which completed contracts in late 2022 or early 2023, partially offset by higher amortization of contract preparation expenses for three rigs in India, Thailand and West Africa in the 2023 period.

General and administrative

General and administrative expenses were relatively unchanged in the three months ended June 30, 2023 compared to the three months ended March 31, 2023.

General and administrative expenses increased by \$3.7 million in the six months ended June 30, 2023 compared to the same period in 2022 primarily due to higher personnel costs and certain one-time costs incurred for the recently acquired rigs in the 2023 period.

Other (expense) / income, net

Other (expense) / income, net, in both periods consisted primarily of interest expense and financing charges and other, net. Interest expense and financing charges in the three months ended June 30, 2023 were relatively unchanged compared to the three months ended March 31, 2023. Other, net expense increased by \$3.8 million during the three months ended June 30, 2023 compared

to the three months ended March 31, 2023, primarily due to a \$3.5 million foreign currency exchange loss from the fluctuations against the U.S. Dollar in the 2023 period.

Interest expense and financing charges in the six months ended June 30, 2023 were \$14.9 million higher compared to the same period in 2022, primarily due to \$14.6 million higher interest expense on the 10.25% Senior Secured Notes, due October 2025 ("10.25% Senior Secured Notes") issued in September 2022. Other, net expense increased by \$3.9 million during the six months ended June 30, 2023 compared to the same period in 2022 primarily due to a \$3.5 million foreign currency exchange loss from the fluctuations against the U.S. Dollar in the current period.

Income tax expense

While the Company is exempt from all income taxation in the Cayman Islands, a provision for income taxes is recorded based on the tax laws and rates applicable in the jurisdictions in which the Company operates and earns income or is considered resident for income tax purposes. The relationship between the provision for or benefit from income taxes and the income or loss before income taxes can vary significantly from period-to-period considering, among other factors, (a) the overall level of income before income taxes, (b) changes in the blend of income that is taxed based on gross revenues rather than income before taxes, (c) rig movements between taxing jurisdictions, (d) changes in the Company's rig operating structures which may alter the basis on which the Company is taxed in a particular jurisdiction, (e) results of income tax audits and/or related settlements, and (f) fluctuations in foreign currency rates against the U.S. Dollar which are used to measure tax receivables in various jurisdictions.

Income tax expense for the three months ended June 30, 2023 was lower than for the three months ended March 31, 2023 primarily due to Q1 deferred tax expense resulting from a new legislation in a certain jurisdiction which prohibits the use of net operating losses to offset certain taxable income for periods beginning after March 31, 2023 versus Q2 deferred tax benefit related to differences in the carrying value of certain assets for financial reporting purposes versus the basis of such assets for income tax reporting purposes, partially offset by an increase in tax expense due to higher revenues.

Income tax expense for the six months ended June 30, 2023 was higher than for the same period in 2022 primarily due to an increase in revenues and liabilities for uncertain tax positions, partially offset by a reduction in currency fluctuations for prior period tax receivables which are measured in foreign currencies and subject to fluctuations against the U.S. Dollar.

Liquidity and Capital Resources

Sources and uses of liquidity

We had \$141.9 million and \$140.8 million in cash and cash equivalents as of June 30, 2023 and December 31, 2022, respectively. Historically, we have met our liquidity needs principally from cash balances in banks, cash generated from operations, and cash from issuance of long-term debt and equity. Our primary uses of cash were payments for capital expenditures, costs related to equity and debt financing, debt servicing and income taxes.

In February 2023, the Company completed the issuance of 17.6 million common shares resulting in net proceeds of \$44.1 million, which is to be used for general corporate purposes, including capital expenditure requirements associated with multiple recent long-term contract awards.

Restricted cash generally consists of cash deposits held related to bank guarantees and are recorded according to the maturity date plus expected extensions and renewals as either other current assets or other long-term assets in the condensed consolidated balance sheets. As of June 30, 2023, we had restricted cash of \$6.7 million and \$25.4 million in other current assets and other long-term assets, respectively. As of December 31, 2022, we had restricted cash of \$12.6 million and \$23.9 million in other current assets and other long-term assets, respectively. The decrease in restricted cash as of June 30, 2023 as compared to December 31, 2022, was primarily due to guarantee cancellations in India for completed contracts.

At any given time, we may require a significant portion of cash on hand for working capital, capital expenditures and deferred costs and other needs related to the operation of our business. We may consider establishing additional financing arrangements with banks or other capital providers. Subject in each case to then existing market conditions and to our then expected liquidity needs, among other factors, we may use a portion of our existing cash balances and internally generated cash flows to reduce debt prior to scheduled maturities through debt repurchases, either in the open market or in privately negotiated transactions or through debt redemptions or tender offers. Any such transactions will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. We may seek to extend our maturities and/or reduce the overall principal amount of our debt through liability management transactions, which may include exchange offers and/or recapitalizations. See also Material Cash Requirements below.

Going concern assumption as per Oslo Bors reporting requirements

As a result of our current financial position, the improvement in utilization, upward momentum in dayrates and our strong outlook, management believes that we have adequate liquidity to fund our operations for the next twelve months, and, therefore, our financial statements have been prepared under the going concern assumption. Additional capital and/or refinancing of our existing debt may be required in the future to meet evolving business needs.

Discussion of Cash flows

Certain information regarding our cash flows is as follows (in millions):

	Six months en		
	 2023	2022	Change
Net cash provided by operating activities	\$ 19.2	\$ 4.5	\$ 14.7
Net cash used in investing activities	(66.3)	(59.9)	(6.4)
Net cash provided by financing activities	43.8	48.5	(4.7)
Net decrease in cash, cash equivalents and restricted cash	\$ (3.3)	\$ (6.9)	\$ 3.6

Net cash provided by operating activities

Net cash provided by operating activities increased by \$14.7 million during the six months ended June 30, 2023 compared to the same period in 2022 primarily due to an increase in revenues when compared to the prior year period combined with the receipt of mobilization fees in the current period, partially offset by an increase in deferred cost expenditures for rigs undergoing contract preparation projects.

During the six months ended June 30, 2023 and 2022, we made cash payments of \$66.1 million and \$50.9 million, respectively, each in interest and financing charges included in other operating assets and liabilities, net. We also made cash payments of \$17.3 million and \$13.7 million in income taxes included in other operating assets and liabilities, net during the six months ended June 30, 2023 and 2022, respectively.

Net cash used in investing activities

Net cash used in investing activities increased by \$6.4 million during the six months ended June 30, 2023 compared to the same period in 2022 primarily due to \$47.6 million higher capital expenditures for reactivation and shipyard projects ahead of long-term contracts with customers during the six months ended June 30, 2023, partially offset by \$41.9 million lower advance payments for property and equipment mainly for the \$37.5 million advance relating to the acquisition of the five jack-up rigs from Noble and \$6.0 million for the purchase of the Shelf Drilling Victory during the six months ended June 30, 2022.

Net cash provided by financing activities

Net cash provided by financing activities decreased by \$4.7 million in the six months ended June 30, 2023 compared to the six months ended June 30, 2022 primarily due to the net proceeds from the issuance of common shares of \$44.1 million in February 2023 as compared to \$48.5 million in June 2022.

Capital expenditures and deferred costs

Capital expenditures and deferred costs include rig acquisition and other fixed asset purchases, construction expenditures on newbuild rigs and certain expenditures associated with regulatory inspections, major equipment overhauls, contract preparation (including rig upgrades), mobilization and stacked rig reactivations.

Capital expenditures and deferred costs can vary from quarter-to-quarter and year-to-year depending upon the requirements of existing and new customers, the number and scope of out-of-service projects, the timing of regulatory surveys and inspections, and the number of rig reactivations. Capital additions are included in property and equipment and are depreciated over the estimated remaining useful life of the assets. Deferred costs are included in other current assets and other long-term assets on the condensed consolidated balance sheet and are amortized over the relevant periods covering: (i) the underlying firm contract period to which the expenditures relate, or; (ii) the period until the next planned similar expenditure is to be made.

The table below sets out our capital expenditures and deferred costs (in millions):

	Six months ended June 30,					
		2023		2022		
Regulatory and capital maintenance (1)	\$	48.5	\$	33.4		
Contract preparation (2)		58.8		19.3		
Fleet spares, transition costs and other (3)		9.3		3.3		
	\$	116.6	\$	56.0		
Rig acquisitions (4)		26.8				
Total capital expenditures and deferred costs	\$	143.4	\$	56.0		

- (1) Includes major overhauls, regulatory costs, general upgrades and sustaining capital expenditures.
- (2) Includes specific upgrade, mobilization and preparation costs associated with a customer contract.
- (3) Includes (i) acquisition and certification costs for the rig fleet spares pool which is allocated to specific rig expenditure as and when required by that rig, which will result in an expenditure charge to that rig and a credit to fleet spares and (ii) office and infrastructure expenditures.
- (4) Includes capital expenditures and deferred costs associated with the Shelf Drilling Victory acquisition and readiness projects.

Capital expenditures and deferred costs were \$143.4 million and \$56.0 million in the six months ended June 30, 2023 and 2022, respectively. The increase of \$87.4 million was primarily due to \$54.6 million higher regulatory, capital maintenance and contract preparation costs primarily for three rigs that commenced new contracts in Q2 2023 and for two rigs commencing contracts in Q3 2023, \$26.8 million higher rig acquisition expenditures primarily related to the rig readiness expenditures for the Shelf Drilling Victory acquired in Q3 2022 and \$6.0 million higher spending in fleet spares, transition costs and other.

Certain Financial Information of SDL and SDHL

The following tables present certain financial information for SDL, SDHL and SDNS for the six months ended June 30, 2023 and certain adjustments to show the differences in this financial information between SDL and SDHL and between SDHL and SDHL excluding SDNS for this period. The adjustments between SDL and SDHL primarily reflect the existence of preferred shares at SDL outstanding in 2018 and general and administrative costs relating to certain professional expenses that are recorded at SDL and not at SDHL. The adjustments between SDHL and SDHL excluding SDNS primarily reflect SDHL excluding the operations, assets, liabilities and cash flows of the five rigs acquired in the Acquisition (see Note 5 – Property and Equipment for details). This information is pursuant to the Indenture for our 8.25% Senior Unsecured Notes, due February 2025 ("8.25% Senior Unsecured Notes").

⁽¹⁾ The \$5.4 million primarily relates to the \$4.5 million legal and accounting fees paid by SDHL on behalf of SDL and \$0.9 million of intercompany balance due from SDNS.

⁽²⁾ The \$120.0 million relates to the investments in subsidiaries made by SDHL once SDNS has been removed from the consolidated SDHL level.

⁽³⁾ The \$1.0 million relates to the intercompany balance due to SDNS.

- (4) The \$1.9 million adjustment reflects the total number of SDL outstanding shares of 194.0 million with a par value of \$0.01 per share. The \$1.0 million reflects SDNS outstanding shares of 100.0 million with a par value of \$0.01 per share that are eliminated at the consolidated SDHL level.
- (5) The \$111.4 million adjustment primarily reflects a capital contribution from Shelf Drilling Intermediate, Ltd. ("SDIL") to SDHL in 2012 and preferred shares dividends at SDL, partially offset by ordinary shares dividend at SDHL. SDIL is 100% owned by Shelf Drilling Midco, Ltd. ("Midco") which is 100% directly owned by SDL. The \$194.3 million relates to the elimination of common shares issued at SDNS that are eliminated at the consolidated SDHL level.
- (6) The \$96.6 million adjustment primarily relates to the Midco term loan interest expense and financing charges, preferred shares dividends at SDL, ordinary shares dividend at SDHL and certain general and administrative costs incurred at SDL level. The \$1.9 million relates to the non-controlling interest that is eliminated at the consolidated SDHL level.
- (7) The \$77.2 million adjustment relates to the non-controlling interest that is eliminated at the consolidated SDHL level.

- (1) The \$2.2 million pertains to the \$2.0 million intercompany asset transfers from SDNS and \$0.2 million of asset transfers to SDNS.
- (2) The \$0.1 million adjustment relates to the payment of issuance costs of shares issued by SDNS to external investors that are eliminated once SDNS is removed.
- (3) The \$25.0 million adjustment relates to capital contribution to SDHL by SDL that was eliminated at SDL.
- (4) The \$0.1 million adjustment relates to the payments of issuance costs of SDNS common shares that were eliminated at SDHL.

Material Cash Requirements

In the normal course of business, we enter into various contractual obligations that impact or could impact our liquidity. As of June 30, 2023 our anticipated material cash requirements consisted primarily of payments related to debt servicing and repayments, operating costs and expenses, operating lease obligations, capital expenditures and deferred costs and income taxes.

As of June 30, 2023, we had a total principal amount of indebtedness of \$1.5 billion which related to the 8.875% Senior Secured First Lien Notes, due November 2024 ("8.875% Notes"), 8.25% Senior Unsecured Notes and 10.25% Senior Secured Notes. Interest related to each of these note issuances is payable semi-annually and principal payments begin in October 2023 for the 10.25% Senior Secured Notes. See Note 7 – Debt in "Item 1. Financial Statements" of "Part I. Financial Information".

As of June 30, 2023, we had operating lease obligations outstanding of \$11.8 million.

We routinely have material spending on capital expenditures and deferred costs to support our business and we expect this will continue. Capital expenditures and deferred costs can vary from quarter-to-quarter and year-to-year depending upon the requirements of existing and new customers, the number and scope of out-of-service projects, the timing of regulatory surveys and inspections, and the number of rig reactivations. Although certain custom equipment may have long lead times, we do not typically commit to significant capital purchases in advance.

The Company maintains surety bond facilities in either U.S. dollars or local currencies provided by several banks in India, the United Kingdom, UAE, Nigeria, Vietnam and Thailand, which may be secured by restricted cash balances to guarantee various contractual, performance and customs obligations.

The total and outstanding surety bond facilities were as follows (in millions):

	As	of	
	June 30, 2023	D	ecember 31, 2022
Total	\$ 76.4	\$	99.2
Outstanding	\$ 50.1	\$	72.6

Contingencies

As of June 30, 2023, we are not exposed to any contingent liabilities that are expected to result in a material adverse effect on the current consolidated financial position, results of operations or cash flows. The majority of the contingent liabilities that we are exposed to relate to legal proceedings, certain contractual and customs obligations secured by surety bonds and bank guarantees and uncertain tax positions. See "Note 6 – Income Taxes" and "Note 8 – Commitments and Contingencies" in "Item 1. Financial Statements" of "Part I. Financial Information" for discussion of any material changes in our contingent liabilities from those previously reported in our Form 10-K Equivalent for the year ended December 31, 2022.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of our condensed consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Certain accounting policies involve judgments and uncertainties to such an extent that there is a reasonable likelihood that materially different amounts could have been reported under

different conditions, or if different assumptions had been used. We evaluate our estimates and assumptions on a regular basis. We base our estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and assumptions used in the preparation of our condensed consolidated financial statements.

For a discussion of the critical accounting policies and estimates that we use in the preparation of our condensed consolidated financial statements, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies and Estimates" in Part II. of our Form 10-K Equivalent for the year ended December 31, 2022. See also "Note 2 – Significant Accounting Policies" in "Item 15. Exhibits" in Part II. of our Form 10-K Equivalent for the year ended December 31, 2022 for a discussion of our significant accounting policies. During the six months ended June 30, 2023, there were no material changes to the judgments, assumptions or policies upon which our critical accounting estimates are based.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various market risks, including liquidity risk, interest rate risk, foreign currency risk and credit risk. During the six months ended June 30, 2023, there were no material changes to the Company's qualitative and quantitative market risk..

For a complete discussion of these risks, see "Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our Form 10-K Equivalent for the year ended December 31, 2022.

Item 4. Controls and Procedures

We are not required to report this Item.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Information regarding legal proceedings is set forth in "Note 8 – Commitments and Contingencies" in "Item 1. Financial Statements" of "Part I. Financial Information".

Item 1A. Risk Factors

The information set forth under the caption "Forward-looking Information" in "Part I. Item 2. Management's Discussion and Analysis" of this report is incorporated by reference in response to this Item and there have been no material changes from the risk factors previously disclosed in the Company's Form 10-K Equivalent for the year ended December 31, 2022.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

Material agreements governing indebtedness can be found on our website at www.shelfdrilling.com in the investor relations section under financial reports, key documents.

Responsibility statement

We confirm that, to the best of our knowledge, the condensed consolidated financial statements for the six months ended June 30, 2023 and 2022, have been prepared in accordance with accounting principles generally accepted in the United States of America, and give a true and fair view of Shelf Drilling, Ltd. and majority owned subsidiaries' condensed consolidated balance sheets as of June 30, 2023 and December 31, 2022 and the related condensed consolidated statements of operations, comprehensive income, equity and cashflows for the six months ended June 30, 2023 and 2022.

We also confirm that, to the best of our knowledge, the report includes a true and fair review of important events that have occurred during the first six months of the financial year and their impact on the condensed consolidated financial statements, a description of the principal risk and uncertainties for the remaining six months of the financial year and major related party transactions.

By order of the Board of Directors

09 August 2023
